BOOTLEGGER IN KANSAS KILLED BY ARMED POSSE

Fifteen Men Surround City Hall and Fire Over Fifty Shots.

MAN'S WIFE HANDS HIM LOADED REVOLVER Body Riddled With Bullets, Marshall and Another Man Killed.

Donner Springs, Dec. 18.—Ruth Harvey, a woman who was killed and her husband, a bootlegger, were today shot and killed by a posse of fifteen men who surrounded the city hall building, on the second floor of the city hall building, on the main street. The posse surrounded the building. In response to a shot Harvey appeared at a rear door.

"Surrender," shouted Eastling. "We're 15 strong. You don't want your family hurt."

Wife Hands Him Gun. Mrs. Harvey, who had followed her husband to the door, handed him a revolver and retired. Harvey opened fire. Before a shower of bullets brought him down he had shot C. H. Weber through the right leg and had dazed Marshall Eastling with a scalp wound. The body of Harvey was found lying on the porch riddled with bullets.

Harvey was 35 years old. He was a laborer employed in a cement mill.

TESTIMONY TENDS TO SHOW HUTTON WAS A PARETIC

Dr. Landry Supports Woodrow in His Opinion to This Effect.

MAY HAVE HAD LUCID PERIODS AT TIMES Counsel Raises Point That Plaintiff's Claim to Land Was Not Verified.

In the Hutton will case, which was resumed this morning before Judge Walsh in the supreme court, counsel for the plaintiffs produced their last witness in the person of Dr. A. Raymond Landry. Dr. Landry was the second physician called by the plaintiffs in an effort to produce to medical testimony to the effect that Hutton, before his death and immediately preceding the signing of the will, was of an unsound mind.

Dr. Woodrow in his testimony testified that he gave it as his opinion that Hutton at the time the will was signed last January was a general paretic. In other words that he was suffering from paresis which is a progressive form of insanity, that invariably brings about death at the end of three years. This testimony was supported by Dr. Landry at this morning's session.

Dr. Landry is a neurologist and an expert on insanity. For a few years attended cases of insanity exclusively in the Royal Victoria hospital, Montreal, but is at present resident in this city. The examination of the

CONSTITUTION OF CANADA DIFFERS FROM THAT OF U.S.

Lord Haldane Discusses Bearing of British North America Act.

UNITS HAVE RESTRICTED POWERS UNDER THE LAW Quebec Resolutions Were For General Government Common Interests.

London, Dec. 18.—In giving judgment in an Australian case in the privy council, Lord Chancellor Haldane had some further observations to offer regarding the federal system of Canada. The British North America Act, said Lord Haldane, commences with a preamble to the effect that the provinces had expressed a desire to be federally united into one Dominion, with a constitution similar in principle to that of the United Kingdom. In a loose sense the word "federal" may be used, as it is there used to describe any arrangement under which self-contained states agree to delegate their powers to a common government, with a view to an entirely new constitution. But the natural and literal interpretation of the word confines its application to case in which these states, while agreeing on the measure of such delegation, yet, in effect, maintain to preserve their original constitution. The second of the resolutions passed at Quebec in October, 1864, on which the British North America Act is founded, shows that what was in the minds of those who agreed on the resolutions was a general government charged with matters of common interest and new and merely local governments for the provinces. The provinces were to have their own governments, their governments being entirely removed from the federal government, and the federal government was to be a general government charged with matters of common interest and new and merely local governments for the provinces.

UNITED STATES PROPOSAL. London, Dec. 18.—A large representative gathering under the presidency of Lord Mayor of London today cordially endorsed Lord Strathcona's proposal for a huge all-British exhibition at the Crystal Palace in 1915.

PLAN TO PREVENT THE PASSAGE OF HOME RULE House of Lords May Adjourn Consideration of Bill Each Month sidation.

London, Dec. 18.—William Joyson Hicks, a unionist member of the house of commons, believes he has discovered a flaw in the parliamentary act which will enable the house of lords to prevent the home rule bill from being made law. He holds that his discovery will give the upper chamber full power to prevent the passage into law of any legislation distasteful to the lords.

THAW SANE ENOUGH TO BE ADMITTED TO BAIL Commission Will Be Appointed to Examine Notorious Murderer.

Ottawa, Dec. 18.—A commission to examine Harry K. Thaw to determine whether his liberty under bail would be dangerous to public safety, was announced in a receipt issued by Judge Aldrich in the federal court yesterday. The commission is to consist of Frank S. Streeter, Concord; Dr. Morton Prince, Boston; Dr. Geo. A. Blumer, superintendent of Butler hospital for the insane, Providence, R.I.; and Dr. Charles F. Bancroft, superintendent of New Hampshire state hospital for the insane, Concord.

In the receipt, which is on Thaw's application for admission to bail, and the habeas corpus proceedings, Judge Aldrich says: "The commission is not appointed for the purpose of listening to experts upon an adversary hearing, but for making such observations and examinations as it sees fit to make as to whether he is sane or not. It is not its duty to make a medical examination of him, but to determine whether his liberty under bail would be dangerous to the public peace and safety."

THE RECEIPT adds that it is not intended there should be a broad trial on the general question of insanity because it is not the purpose to embark any subsequent litigation where that question may be involved.

PETER GUNN MAKES A GREAT ORATION IN NEW YORK CITY

Takes a Trip East and Delivers Memorable Speech to Canadian Club.

VISITS MONTREAL FIRST TIME IN THIRTY YEARS T. J. Cornwall Returns From Investigating Chicago Iron Trade.

Peter Gunn is back home. Considering the fact that it is 30 years since Mr. Gunn has taken a trip of any consequence east of his beloved west, his many friends are more or less relieved to see the popular member for Lac Ste. Anne safely back in his old haunts. The arrival was the occasion of a little reception, consisting of Peter Gunn himself and his two friends, R. L. Shaw, member for Stettler, and J. K. Cornwall, ex-M.P.P. for Peace River. Mr. Gunn, revealed his friends with an account of his visit to the east, a visit which included the cities of New York, Detroit, Montreal, Toronto, Chicago and many points of minor importance.

The last time Mr. Gunn saw Montreal was 30 years ago, when he first stepped on Canadian soil fresh from And Scotia. The changes that have come about the eastern metropolis were almost too much for the westerner's belief. On his arrival at that city he made straight for the museum, and on reaching the top thereof, took a comprehensive survey of the big town which 30 years ago had looked so different.

The next place of importance to be visited by Mr. Gunn in his recent journey was New York. Mr. Gunn entered that town distinctly as a private citizen, but after his exceptionally fine performance as an orator at the big Canadian Club dinner, he awoke to find himself famous—at least among the Canadian colony of that city and the representative guests who were present.

It did not, however, stop at New York. When Mr. Gunn once more set foot on Edmonston soil he found that the fame of his speech had preceded him. So effective was the report of his speech that J. K. Cornwall went so far, in congratulating his friend, as to admit that he himself in the midst of his oratorical career had never done anything to surpass the speech-making achievement of his friend Peter Gunn at the big Canadian Club.

Visits Chicago. T. J. Cornwall, of the Edmonton Iron Works, just returned from Chicago, where he was looking up the steel and iron business. Mr. Cornwall says business is very quiet all over the United States, and he is glad to be back to Edmonton, where the weather is as mild as anywhere he has been.

While in Chicago he visited the World and Stock Shows, in which Alberta came first in almost all products.

SWEEEPING REDUCTIONS IN EXPRESS CHARGES

Tolls for Handling Freight Bills of Lading Recreased Consideration.

Ottawa, Dec. 18.—An order has been issued by the railway board making sweeping reductions in express charges for the handling of freight bills of lading.

To present the express companies forward bills of lading for freight shipments. They further charge for the collection and returning of the money under the bill of lading 1 per cent. By the order which has been signed a change in the express classification has been made. Under this a new rule provides for the charge of 1-8th of 1 per cent, with a minimum of 1 cent, on \$100 or one company's line and 1-2 per cent, when carried by more than one company.

In practice the present and proposed rates will work out as follows: On \$100, present \$5; proposed, one line \$5; proposed, one line \$1.50. On \$200, present \$10; proposed, one line \$1.50. On \$300, present \$15; proposed, one line \$1.50. On \$400, present \$20; proposed, one line \$1.50. On \$500, present \$25; proposed, one line \$1.50. On \$600, present \$30; proposed, one line \$1.50. On \$700, present \$35; proposed, one line \$1.50. On \$800, present \$40; proposed, one line \$1.50. On \$900, present \$45; proposed, one line \$1.50. On \$1,000, present \$50; proposed, one line \$1.50.

ADVISES STUDENTS TO STUDY LANGUAGES

Sir Wilfrid Laurier Gives Good Advice to McMaster University Students.

Toronto, Dec. 18.—Addressing the students of McMaster University yesterday afternoon, Sir Wilfrid Laurier advised them to study the languages, even the dead languages, and spoke of the benefit he had found in the knowledge of Latin to be to him through life. Referring to modern languages, he said that every one should know English, French and German. At an early age he had been sent to an English school, where no one knew any French, his native language. He admitted that those days had seemed hard at the time, but spoke of the benefit he had found in the knowledge of Latin to be to him through life. Referring to modern languages, he said that every one should know English, French and German. At an early age he had been sent to an English school, where no one knew any French, his native language. He admitted that those days had seemed hard at the time, but spoke of the benefit he had found in the knowledge of Latin to be to him through life.

"The French language," declared Sir Wilfrid, "is the commercial language of the world. The nature of the language lends itself to business. It is more concise and more direct than any other language I know."

"The French language has been the language of Europe for centuries," he continued. "No man's education in Europe is complete without it. For the best 80 years it has been the language of diplomacy and of the law. It has more flexibility than English and is more fitting to express shades of thought."

Sir Wilfrid expressed his regret that he had never learned the German language and said that he had found this lack of knowledge a handicap.

EIGHT MONTHS' INFLUX OF NEWCOMERS 340,899

British Numbered 132,461 and Those From the United States Aggregated 86,272.

Ottawa, Dec. 18.—Total immigration during the first eight months, April to November, of the current fiscal year was 340,899, made up of 132,461 British, 86,272 American, and 122,166 from all other countries. During the eight corresponding months of the last fiscal year the total number was 321,058, composed of 128,432 British, 166,038 American, and 82,588 from all other countries. The increase is six per cent.

REGISTRATION OF VITAL STATISTICS NOT SATISFACTORY

Dr. Whitelaw Reports to Commissioners on This Important Subject.

MAYOR-ELECT TO TAKE UP WITH GOVERNMENT Other Provinces Have M.H.O.'s Collect Information Direct and Report.

The question of the inadequate machinery for the collection of vital statistics in the city was brought to the attention of the commissioners last week, and the matter was referred to Dr. Whitelaw, who, in reporting, stated that at present the collection of vital statistics is in the hands of St. George Jellett, who is the duly appointed registrar of births, marriages and deaths under the provincial health act. The health department has for some time been endeavoring to keep a true record of the vital statistics for the city, but the reports of the registrar, particularly, is not being as strictly enforced as it should be.

In the province of Saskatchewan recently the provincial health act was amended, putting the collection of vital statistics directly into the hands of the medical officers of health of the various cities and municipalities. This appears to be a move in the right direction, and it would be well if our provincial government passed similar legislation. Nothing can be done in the matter, however, unless the provincial department will take it up. The importance of having the law strictly enforced regarding vital statistics in our city cannot be over-estimated.

The commissioners have decided to bring this recommendation to the attention of Mayor-elect McNamara with a view to taking it up with the government at the next session of the legislature.

MASQUERADED AS BOYS.

Ottawa, Dec. 18.—Elsie Whitman and Margaret Johnson, known under arrested last night as "Jack" Whitman and "Roy" Johnson respectively, who were charged with the masquerade of C. P. R. telegraph boys, today told the story of their escapades. The case, one of "boy" masquerade and has a child in England, and it was to earn enough money to bring her mother and little sister to Canada that she practiced the deception. Elsie, or "Jack," is a tall blond; Margaret, or "Roy," is short and dark. They are English girls, aged respectively 27 and 21.

MEXICO CAN GET MONEY.

Paris, Dec. 18.—The efforts of the Mexican government to raise money in Europe to meet the interest on its obligations falling due in January have thus far been futile.

JOHN E. EMMONS INSTANTLY-KILLED BY WAGON WHEELS

Thrown From Load by Sliding of Coal From Underneath Him.

LIFE EXTINGUISHED WHEN AMBULANCE ARRIVES Leaves Wife and One Child to Mourn His Sudden End—No Inquest.

John E. Emmons was instantly killed this morning at the corner of Alberta and Sandhurst avenues, while driving a coal wagon. The deceased, who was a married man with one child, living at the corner of Edmonston and Sandhurst avenues, has been working for Hirst's Coal Co., and at the time of the accident he was driving a coal wagon, loaded with a load of coal. He was standing next to the load on the road, and just as he got to the corner of Alberta and Sandhurst avenues the tall-board slipped out from under the wagon, and he fell under the unfortunate man's feet, with the result that he was thrown from the wagon and run over by one of the rear wheels, and before he could stop the horses, the wheel had passed over his head, causing instant death.

The only witness to see the accident was a man named Wilchinsky, who stated that the whole accident happened so quick that he could hardly tell how it really did occur.

The accident occurred about 11:30 this forenoon. As soon as word was received at the police station the ambulances was rushed to the scene, but upon its arrival it was found that the man was dead.

Coroner Flett was at once notified and he ordered the body to be removed to Connelly & McKeen's undertaking parlors. No inquest will be held.

POWER HOUSE STILL SHOWS BIG SURPLUS ON REDUCED RATES

Almost \$10,000 Available for Obsolescence Fund on the November Operations

UTILITIES GET CUT IN PRICE OF POWER Electric Light and Telephone Departments Save as Result \$6,601.80.

After having reduced the cost of power the electric light and street railway departments a sum amounting to \$6,601.80 during the month of November, the city is showing a big surplus on reduced rates. This reduction has been effective from the beginning of the month, and it would be well if our provincial government passed similar legislation. Nothing can be done in the matter, however, unless the provincial department will take it up. The importance of having the law strictly enforced regarding vital statistics in our city cannot be over-estimated.

The commissioners have decided to bring this recommendation to the attention of Mayor-elect McNamara with a view to taking it up with the government at the next session of the legislature.

PROVINCIAL TREASURY RECEIVES \$3,600,000 FROM NEW YORK

The provincial treasury of Alberta is reveling in the possession of wealth galore these days, having within the past few days received the goodly sum of \$3,600,000 from a New York financial house. This money is the proceeds of vouchers placed on the New York money market and floated by the firm of Spencer Trask & Co., well known financial men of the metropolis.

WHEN REPLYING TO ADVERTISERS, PLEASE MENTION THE DAILY CAPITAL.

THINK LYNCHERS CROSSED BORDER TO AVENGE CRIME

State's Attorney Holds the View That Men Were Canadians.

MAY HAVE PUNISHED ASSAULT UPON WOMAN

Man Criminally Attacked Her and Stole Money and Horses.

Williston, N.D., Dec. 18.—With slippers, dentures and a wig, the northwestern section of North Dakota, searching for the lynchers, the gang of about 40 and 50 masked men who, and the county jail here yesterday morning, dragged out Cleve Culbertson, a man who had been arrested with murder in the first degree if captured. Although he was not discovered the identity of any of the men, the state's Attorney Hurdick, is making a careful investigation of the sensational lynching of a man who was convicted of killing three persons.

Suspects Canadians.
State's Attorney Hurdick, however, he has struck another angle of the case. He is now working on the theory that Culbertson was taken from the jail and hanged to a bridge over the Little Muddy river, a mile away, by a gang of men from Canada, to avenge Culbertson's assault on Mrs. Buck, of Williston, Sask., a week before the triple murder at Day. Culbertson was working at the bank farm for a time. He criminally assaulted Mrs. Buck and stole some money, guns and a team of horses, driving them into the United States.

The crime in Canada at that time aroused the Canadians' anger and it is believed by State's Attorney Hurdick, that Culbertson was taken into the United States on horses and in automobiles and take the law into their own hands. It is believed that the lynchers left their horses on the outskirts of the city while they made their escape on the jail.

Motive Was Robbery.

State's Attorney Hurdick says that Culbertson's motive in coming into the United States was robbery. It was proved that Mrs. Dillon had money before she was killed, but none after. Some of the lynchers are believed to have come from the vicinity of Day, where the lynchings took place. A bunch of armed masked lynchers were trailed eight miles east of Williston. It was also ascertained that a bunch of men came from the direction of Phenix, Mont., and Montana, and it is not the state's Attorney Hurdick, is believing that the Canadians were the ones who did the job.

ABOLITION OF BAR STILL UNCERTAIN IN SASKATCHEWAN

Government Has Reached No Final Agreement on the Terms of Bill.

CONFENDING INTERESTS CONSULT WITH PREMIER

Submit Propositions for Consideration, But No Settlement is Reached.

Regina, Dec. 18.—The bill providing for the submission of a plebiscite to the electorate of the province on the abolition of the limitation of the bar is still in an uncertain stage. No final agreement has been reached yet by the members of the government, though it is expected that the bill will be brought up for second reading later.

A short conference was held by the government workers with Premier Scott yesterday afternoon, but as far as a solution of the difficulty went no progress whatever was made. The same proposal previously put forward was repeated. The anti-biquet movement stated that if the minimum alternative vote necessary to carry the bill were placed at 30, then they would place a 10 per cent. larger vote than the supporters of the liquor interests. The majority, and a minimum number of votes in favor of the measure of 40,000. In connection with the latter vote, in the event of a plebiscite, it would seriously lower the number of votes cast in the municipal elections, and arrangements could be made to take a plebiscite the following year, instead of having it tied up for years, as it is expected that the bill will be brought up at the polls under the present provisions.

An equally strong demand was made yesterday by a delegation from the Licensed Victuallers' Association of the province. They wished the minimum alternative vote placed at 50,000 claiming that it is extremely fair in view of the increase in the number of voters. When the last lists were completed, at that time there were 100,000 names on the list, and 60,000, of which would be the lowest amount that would reasonably be expected. In such cases, the government have no definite answer, but promise that the proposals would be taken into consideration in coming to decision as to the proper figure.

NEW TREATMENT NOW ADVOCATED FOR BRONCHITIS

Is Making Wonderful Success, And Is Making Most Remarkable Cures.

For bronchitis a different form of treatment is now advocated. It consists of a scientifically designed vaporizer of the lungs and bronchial tubes. Every spot that is sore, every surface that is irritated, and every surface with soothing liniment, and a cathartic. This treatment must be employed in bronchitis, throat trouble, colds, etc., is called CATARRH-OLYSIS. It acts just as air of the nine woods acts, as a healing agent, it is ready for all diseases of the breathing organs.

Just think of it—remedy that can be carried with the very air you breathe, the most of bronchitis or catarrhal inflammation. A remedy powerful enough to kill germ life and yet so healing that it does this before it kills. In many lands it has won its success. It is affording great results to sufferers from colds, catarrhs, throat troubles, asthma and bronchitis, or any winter illness that would find a cure in Catarrhosis, which is employed by the ministers, lawyers and judges. It has been used by many foreign kings. Large size lasts two months and costs \$2.00. Small size lasts one month and costs \$1.00. Write for the Catarrhosis Co. Catalogue, No. 1, New York, and Kingston, Canada.

U. S. SHOULD OWN TELEGRAPH AND TELEPHONE LINES

Postmaster-General Burleson Favors Movement in His Report.

POSTAL DEPARTMENT NOW ON PAYING BASIS

Object is to Conduct Business For the Convenience of Public.

Washington, Dec. 18.—A sweeping declaration in favor of government ownership of telegraph and telephone lines, and an assertion that the postal service now is self-supporting for the first time since 1883, are features of the annual report of Postmaster-General Burleson transmitted yesterday to Congress.

Concerning the acquisition of telegraph and telephone lines, Postmaster-General Burleson says that the government has demonstrated its capacity to conduct public utilities and from his present information, he is inclined to believe that the taking over by the postal office department of the telegraph lines and possibly also of the telephone lines, is a wise general financial policy.

As his general financial policy, Postmaster-General Burleson says: "The dominant policy of the present administration will be to make the postal service now a self-supporting for the first time since 1883, are features of the annual report of Postmaster-General Burleson transmitted yesterday to Congress."

SAYS COMMISSION CHAIRMAN IS GOOD AS WHITE WASHER

Edwards Accuses Claude McDonald of Shutting off Evidence.

TIME MEMBER WILL TAKE COMPLAINT TO COMMONS

Doctor Denies Neglect Patients—All Needing Medicine Got It.

Kingston, Dec. 18.—There was a lively clash at the House of Commons on Monday's session yesterday when Mr. Edwards, M.P., once more broke house on the subject of the health of the M.C. When the Frontenac member was at his hottest he informed the little gathering that apart from the clamorousness of the chairman he would make a good washerman.

J. P. Downey, one of the chairman's confederates, objected to such language from Mr. Edwards, and intimated that his remarks were unworthy of the position he held, and wholly unwelcome to the chairman. Mr. Edwards, however, he had received from him, and when the chairman he would take objection on the floor of the house of commons against the manner in which the crime investigation had been conducted.

Dr. Edwards had charged that there was an attempt to evade the evidence which he desired to have presented, particularly from Inspector Hughes, who had been on the stand in the case, but from which he wished to secure more information as to the preliminary charges.

The chairman told the Frontenac member he had no right to take part in the discussion and asked the official stenographer to make no note of his remarks. Mr. Downey claimed there was no attempt to shut off evidence. After while the atmosphere cleared and the chairman suggested that the examination of witnesses proceed.

During the day Deputy Warden O'Leary, charged the stand and denied all truth in any of the giving taken. When asked to repeat what he said, and thought a convict should receive a

Dr. Thelan was on the stand in defense when the commission adjourned and the chairman announced that the charge that he had neglected patients. No convict who required medicine was refused by him. His evidence will be continued today.

Concerning the acquisition of telegraph and telephone lines, Postmaster-General Burleson says that the government has demonstrated its capacity to conduct public utilities and from his present information, he is inclined to believe that the taking over by the postal office department of the telegraph lines and possibly also of the telephone lines, is a wise general financial policy.

'The Bay' Values Lend Zest to Your Xmas Shopping

Christmas Week Hours of Business

This store will be open Monday and Tuesday evenings before Christmas until 10 o'clock, but will close at the usual hour, 6 o'clock on Wednesday, Christmas Eve. The store opens daily at 8.30 a.m.

"The Hudsonia" and Cafeteria

In operation, Luncheon 11.30 to 2.30, A La Carte service, the most popular prices. Luncheon 11.30 to 2.30; afternoon tea 3.30 to 5.30. Orchestra in attendance.

ties. The stairways leading to the upper stories are broad with slate steps and stairs of mahogany. The corridors are ten feet wide on each floor and laid with linoleum with terrazzo borders.

Will Form the Central and Most Imposing Unit in the Group.

WILL BE 300 FEET
LONG AND 70 WIDE

Third Residence Building is Now Under Construction.

Tenders have been called for the erection of the new arts building which is to form the central and most imposing unit in the arrangement of buildings which go to make up the provincial university.

The new building will be of "T" shape, as well known in buildings of this nature. It will face east near Eighty Street N.W. and will be 300 feet long by 70 wide. The height will be made up of a basement and three full stories and a mezzanine gallery in part of the roof. Perhaps the most important section of the new building will be the big assembly hall, which is to be located westward from the center of the main part of the building.

In the architectural treatment of the new building, free classical line has been followed. There will be three entrances, a large one in the centre and two smaller ones at each end. The basement walls are to be of solid concrete. The base and steps will be of granite. The trimmings of dressed stone and the parapets of terra cotta. The main external ornaments will consist of large Ionic columns, 55 feet high, 35 feet in diameter, and at all three entrances will be placed at all points of the building, and the whole will be calculated to add most to the artistic effect of the building in every respect, the new university centre will be of concrete and steel throughout and will be fireproof in the heart of the ward.

Large Laboratories

On the third floor are located the chemical laboratories 94,325 feet, two physics laboratories each 47,525 feet, a physics lecture room 35,225 feet, a chemistry lecture room 35,225 feet, a chemistry laboratory 47,525 feet, room for biological research 47,525 feet, classrooms, preparatory room, and four offices.

Drafting Rooms at the Roof

The fourth or mezzanine floor extends only over the three entrances in the centre and at each end, where the roof is higher. On this floor will be located two drafting rooms 47 by 25 feet at the ends, and one drafting room in the centre, 40 by 24 feet. The skylights will provide perfect light for the architects in the drafting rooms.

The assembly hall, which will be the largest hall in the university, is to be constructed that although there will be a gallery at the back and along both sides, it will not be a single place to construct the view of the audience, which if it filled the hall would number a thousand.

The plans for the new structure have been prepared by Nobis and Hyde of Montreal and were drawn by a view to meeting the suggestions of the governors and faculty of the university. The residence building is C.S. B. H.A., professor of architecture in the University of Alberta.

GIVEN UP FOR LOST SAILORS ON WAY HOME

San Francisco, Dec. 18.—Given up for lost, the crew of the dismantled and abandoned steel ship Dalcomar, owned by Louis and were drawn by a view to meeting the suggestions of the governors and faculty of the university. The residence building is C.S. B. H.A., professor of architecture in the University of Alberta.

It is expected that the winter will be mostly taken up in dealing with the cold and the letting of the various contracts and that actual building will not commence before the early spring.

The third residence building is now under construction and by the time

the new arts building is finished there will be residence accommodation for about 500 students in the three buildings.

the French barge Marie, anchored, Captain Morisset, of the Marie, ejected the Dalcomar 1,200 miles off the coast of Chile on October 28, telling her food out of water with her rigging torn from her mast. Two of the ship's small boats were gone. The others swam on the drifts. Now comes word that the Dalcomar has been picked up and crew and on December 3, a special to some unknown steamer, which flashed the news of the rescue broadcast.

KILLS SELF WITH POISON

Toronto, Dec. 18.—Following through which he had made to friends that he recovered from his life after being killed, a roomer at 24 Trinity Square, was found dead in his room last night from poisoning.

ANOTHER ARREST THIS MORNING IN TICKET STEALING

This Brings the Number of Prisoners Taken Up to Eight—At Least One Other Man Will Be Taken Into Custody—Accused Are Released on Heavy Bail.

Arthur Garton and W. A. Whillans were arrested last night and this morning, respectively, in connection with the alleged defrauding of the street railway department. This brings the number up to eight, and it is not the police in regular work trying to arrest at least one other man who is alleged to be implicated in the case, and when Mr. Brien's investigation will end, it is a matter which seems to be puzzling the minds of the police officials. Both of the men arrested are plumbers by trade, and have been charged with receiving stolen goods. The men have been also charged on heavy bail. That the amount at which the city has been defrauded by the wholesale stealing of street car tickets will reach upwards into the thousands of dollars, seems to have been due to the fact that not only is it alleged that it has been going on for months, but everything seems to indicate that it is a regular system by which the profits were divided by the men connected with it, and the police in regular work was apporportioned a certain part in the manipulation of this system.

THE PRIDE OF ACCURACY

There is a fine sense of Pride and Comfort—a feeling of safety that is derived from a really GOOD WATCH

A watch as a gift is a valuable treasure.

THE PENALTY FOR FAILURE TO UNDERSTAND

Representing the Dominion Council of Agriculture, which includes the Dominion Grange, the U. F. A. and the Grain Growers, the delegation selected for the purpose have made their pilgrimage to Ottawa, they made their request and have received their expected assurance that the government "will give their representations its most serious consideration."

What the farmers ask is a reduction of the tariff, the abolition of all tariff against Britain, equitable railway rates, access to the United States market, and some recognition of the fact that the present economic system is denuding the farming country and driving men in increasing numbers to the cities. As Grand Master Green of the Grange puts it, "the resources of our country and even the lives and character of its people have been exploited in order to make possible the enrichment and aggrandizement of the few."

What the farmers got, of course, was nothing. They come away empty-handed, but it is quite probable that not one among the number expected for a moment that anything different would be the termination of their visit. Asking Borden, White, Foster, Roche and Rogers to reduce the tariff and discipline the railways is a situation the irony of which could not have been lost even upon the ministers themselves, to say nothing of the farmer delegates.

The presence of the farmers in Ottawa, however, and the unanimity of their demands, marks a development in Canadian thought which it will stand the politicians and near statesmen who hold power at Ottawa in hand to take note of. They had better mark these men and their demands for identification. They will meet them again.

All the statistics, all the records, all the experience and all the economic developments in the Dominion of Canada today combine to pile up the proof that the farmers are right. Agriculture, in spite of the exhaustless fertility of the hundreds of millions of untenanted acres in the west, is not growing as it should. On the contrary, it is not even possible to keep the people on the farms in the older sections where the hardship of pioneering is a century behind. Although showing progress in some sections, such as Alberta, Canada's basic industry, in a nation-wide sense, is almost at a standstill. The nation's growth is a top-heavy growth; too many going to the cities, too few to the country. The cost of living mounts up, but the multiplying methods of exploitation intervene and the farmer does not get the money. The effect is that the surplus population in the cities is being carried at his expense.

Such conditions must be changed. Life on the farm must be made more worth while. The arrangement must be made that the rewards of husbandry are not intercepted. The load piled on through the tariff and unjust railway rates must be lifted even if it becomes necessary to abolish the tariff entirely and take over every mile of railway in the dominion for the general good of the people of Canada.

The farmers see this clearly. Out on their homesteads, with an unobstructed view, they are in the best position of all to observe with an unobstructed view, they are in the best position of all to observe with a broad and clear vision the obstacles placed in the path of agricultural development. The members of the government do not see it. Surrounded by the artificial prosperity which the beneficiaries of the tariff enjoy, and beset at every turn by the lobbyists of the railways, they have developed an astigmatism. They do not realize that wealth concentrated means wide contraction; that the only prosperity which a nation can safely enjoy is the prosperity which is nation-wide; that a flourishing farming country is a much greater testimony to prosperity than the water in any stock.

The penalty which governments pay for this failure to understand is defeat. The Borden government cannot survive.

THE HORRORS DISCLOSED AT THE KINGSTON PEN

Additional disclosures of conditions existing at the Kingston penitentiary add to the revelations of horrors in Canada's greatest penal institution. Seven suicides of lunatics within nine years is the record, almost everyone of which took place after punishment visited upon them by the guards. How there could be justice in visiting physical punishment upon a lunatic is evidently not even mentioned in the investigation, but that it must have been the regular thing appears quite certain.

The investigation at Kingston is proving that penal institutions in Canada, as in other countries, invariably degenerate into hell-holes of vengeance where those who have been unfortunate enough to fall into the clutches thereof are persecuted and tortured in a manner which has nothing whatever to do with justice. So far from having any tendency toward regeneration, the prisons of the world make desperate criminals of men who should never have been enemies of society at all if treated fairly at first.

HAD TO STOP WORK FROM THE PAIN

Suffered Ten Years Until "Fruit-a-Lives" Cured Him

ST. THOMAS, Ont., May 22nd, 1913.

"I was troubled for ten years with the most distressing and debilitating condition of the worst form. No one could have been worse with these troubles than I was for this long time."

The pain from inflammation was so severe that many times, I have had to stop work and lie down until the acute spasms passed away.

I took a lot of medicine—in fact, I guess I took about everything that was advertised—and gave them all a fair test—but got no relief. About a year ago, however, I was advised to try "Fruit-a-Lives." I am mighty glad I did so for they seem to be made exactly for me.

They gave results in a very short time and I am now free from these diseases and enjoying perfect health.

My wife also used "Fruit-a-Lives" and we both think they are the best medicine ever made.

Z. J. EDGEWORTH.
 Age 60, Box 6, Z. J. 50, trial size, 25c. At all dealers or sent on receipt of price for Fruit-a-Lives, Ltd., Ottawa.

CORRESPONDENCE

WHAT WILL EDMONTON DO WITHOUT INDUSTRIES?

To the Editor of the Capital:

As a citizen and taxpayer of the city followed with a good deal of interest the outgoing administration's action in curtailing expenses of the city, and that its action in abolishing some of the useless departments was very wise, but it is very evident that there was one department, and a very expensive one, that it overlooked, and one that the city has received very little return from. That is the department of the industrial commissioner. This department cost the city \$10,000 this year. What have we received for it? Have we received one citizen enjoying ten times?

I think that all citizens will agree with me that if our city is going to continue to grow, and if we are going to maintain our present growth, we must have factories and in order to get them we must have a live industrial commissioner—one that will make Edmonton appear as a manufacturing city to the outside world. He should locate a factory in our city and who might require some additional capital, is able to get out and solicit for some of the available money that there is in this city for investment in bona fide industries.

It is just possible that some industrial commissioner gets in communication with a city he may want information which may not be so out of him in a manner as would make Edmonton appear as a manufacturing city.

Other cities in western Canada get industries through their industrial commissioners. Why not Edmonton?

The work of the industrial commissioner is to induce industries to locate here, and to help them to do this. Then why is the city not getting industries? There are many men who can be secured, and certainly in this city, who understand how to interest manufacturers and who have the ability to promote and secure capital for industries.

Edmonton needs a good field for manufacturers. We have an abundance of good raw material in the west—and a large growing market for all manufactured articles. Then, why are we not getting some industries?

The city now looks to Mr. McNamara to do this part in bringing new industries to Edmonton.

ONE CITIZEN.
 Edmonton, December 16.

NOTICE FROM HOSPITAL BOARD.

To the Editor of the Capital:

The Edmonton hospital board has instructed me to advise the public through your columns that all pay patients in the hospital, the Strathcona and the location hospitals will be held personally liable for the amounts of their accounts for hospital accommodation, and that in the case of accommodation, not for in private and in semi-private wards, payment will, according to the usual rule, be required in advance. No contract with the Canadian Hospital Association, Limited, or any other insurance company or association will be accepted as payment, or as a guarantee of payment of any charges for accommodation.—Yours truly,

D. H. LEONARD, Secretary.

This Will Stop Your Cough in a Hurry

Save \$2 by Making This Cough Syrup at Home.

"This recipe makes 15 ounces of better cough syrup than you could buy ready made for \$2.50. A few drops usually conquer the most obstinate cough—stop even whooping cough quickly. Simply mix it, no better remedy can be had at any price."

Mix two cups of granulated sugar with one cup of water and boil for 25 minutes. Put 2½ ounces of Pinex (the "cough" cure) in a teaspoonful of water and the Sugar Syrup. This has a pleasant taste and lasts a family a long time. Take a teaspoonful every one, two or three hours.

You can feel this take hold of a cough in a way that means business. It is a real tonic, builds up the appetite, and is slightly laxative, too. It is a healthy remedy for all ailments, colds, bronchitis, asthma and all throat and lung troubles.

The effect of pinex on the membrane is well known. Pinex is the most valuable constituent of about 200 different medicinal plants, and is rich in quinine. Other preparations will not work in this way. This Pinex and Sugar Syrup recipe has satisfied the greatest medical authorities in the United States and Canada. It has often been imitated, though never successfully. It is a guarantee of absolute safety, or money promptly refunded, goes with this recipe. Your druggist has Pinex, or will get it for you. If not, send to the Pinex Co., Toronto, Ont.

TODAY IN DOMINION HISTORY.

Queen's University at Kingston, when a meeting was held at Kingston to launch a campaign for raising funds for the Presbyterian Institute of Higher Education.

The first principal of the Presbyterian Institute of Higher Education was founded in the interest of the Presbyterian Church in Canada, and the operation and assistance of the church of Scotland, which was appointed by the first principal.

A rule dwelling house of two stories was the first home of the college. The student body was at first very small, and the development of the institution was hindered by the separation which took place in the Presbyterian church of Canada consequent on the disavowal of 1841 in Scotland. The removal of the Presbyterian bodies in Canada in 1871 gave Queen's a new impetus, and a more effective organization was achieved by an act of the Ontario legislature of the same year. Dr. George M. Grant, of Halifax, was chosen principal in 1877, being the first native of Canada to occupy that position. The people of Kingston rallied to the assistance of their college and raised a fund for the erection of an \$80,000 art building. The building, which is now the home of Queen's, was a place among the country's foremost educational institutions.

December 18 is the birthday of Philip Simeon, one of the founders and first principal of the Hudson's Bay Company, 1616; the day is also the birthday of the industrialist and historian in the northwest, at Wabasca, 1813; and the day is also the birthday of the industrialist and historian in the northwest, at Wabasca, 1813.

FIRST THINGS

W. C. HARTLEY, Gen'l Agent.

The first official trial of Sir William Siemens's dynamo, electric light, was made in the English torpedo service at Sheerness 42 years ago today, and was reported successfully. This marked an important advance in electrical science.

Sir William Siemens was a native of Hanover, but his labors as an inventive and electrical engineer were principally carried on in England. His brother, Baron Ernst Werner Siemens, was a prominent German scientist and was preparing to celebrate this year, on Dec. 15, 1914, his sixtieth birthday. The differential governor, the electric dynamo recording telegraph, the electric process, the Siemens armature, the dynamo electric machine, the electric railway, the automatic dispatch tube system, the Siemens's alcoholometer, and many other electrical applications of electricity and other forces of nature. He built the first great telegraph line in Germany, and laid the first submarine cable with electrical insulation. He founded the Berlin company which became one of the world's chief centers for the application of electricity to the industrial arts.

Fairweather's CHRISTMAS SALE OF FINE FURS

Discounts of 20 to 33 1-3 Per Cent Off the Marked Prices.

The novelty of being able to buy Fairweather's exclusive quality garments at discounted prices seems to be quite well established with the ladies of Edmonton. At any rate, practically every reduction advertised since the beginning of our sale has been snapped up by appreciative buyers who accepted the opportunity of combining the gift giving spirit with highest grade quality furs. Such gifts are most practical because they are sensible and useful. To be able to purchase Fairweather furs at reduced prices at this time of the year is uncommon. Only a few more shopping days before Christmas. Do not fail to look in and see for yourself what a saving such gifts will mean to you.

SULLIVAN'S LTD.
JASPER BLOCK EDMONTON

THE GAY WORLD.

Mr. Chappelle and his sister, Miss Chappelle, of the McLean block, gave a charming bridge party on Wednesday evening.

Mr. and Mrs. Harry Cate are moving from 324 Twenty-sixth street to Edmonton South, 777 Eighth street N. W. Mrs. Cate will not receive again until the second Tuesday in February.

Mrs. Arthur Murphy is entertaining at lunch on Friday in honor of Mrs. Ferguson-Durfee.

Mrs. Arthur Murphy and Mrs. Ferguson-Durfee left on Tuesday via G. T. P. for Pete Janne Cate, and are returning today.

Dr. and Mrs. Stewart of Camrose are visiting friends in Edmonton.

Miss Gould, Winnipeg, will arrive on Sunday to spend Christmas with Mr. and Mrs. Ambrose Dickens.

Com. Francis Maurice de Boudare is in Montreal on his return from Italy and will arrive in Edmonton next week.

Mrs. Sifton of Edmonton, is in Calgary to meet her daughter, Mrs. C. H. Sifton, who has been visiting at the hotel for some weeks past. They will be accompanied home by Master Raymond Sifton, who will spend the Xmas holidays in Edmonton.

Mr. W. J. Wright leaves tonight for San Francisco, where his marriage to Miss Alice Graham Adams, daughter of Hon. Judge and Mrs. Adams, takes place on Wednesday, December 31.

Mr. Edmund Giffin and Dr. R. P. Nichol are leaving this evening to spend the Christmas holidays at their old home in Kingston, Ont.

Miss Thompson, who has been visiting Mrs. Duncan Marshall, has gone to Calgary and will visit in Regina before returning to her home in Orillia, Ontario.

Mr. and Mrs. Howard Douglas, Seventh street, will entertain a large family party for Christmas, as they expect about 16 guests to dine.

Their daughter, Mrs. McArthur, of Revelstoke, will arrive on Sunday, with her son and little daughter, Mr. McArthur, a little later, and Mr. McArthur, who is at college in Port Hope, will meet his mother here on Monday.

This will be a reunion of the family for the first time in a number of years, and Mr. and Mrs. Douglas are looking forward to a Christmas which will, indeed, be a merry one.

ENGAGEMENT.
The engagement is announced in Vancouver of Miss Edith Mary Craig, daughter of B. L. Craig, Vernon, to Mr. Ernest Reynolds, of Edmonton, son of the late Judge Reynolds, of Brockville. The wedding will take place this month.

RECEPTION.
Madame Madure, lately of Montreal, received for the first time since coming to Edmonton on Tuesday. The tea table was decorated with pink and white carnations, mingled with ferns and lighted with candles.

Madame Madure and Madame Anon, both of the McLean block, gave a charming bridge party on Wednesday evening.

ROW OF PEARLS WORTH \$275,000 MYSTERIOUSLY RETURNED TO LOSER

Paris, Dec. 18.—A large row of pink pearls, worth \$275,000, belonging to a well-known lady of the old French nobility, has been restored for the first time after she lost it at the skating rink. The man who returned the pearls is apparently rich but has taken most elaborate precautions to keep his identity.

The lady's lawyer was approached by another attorney, who said he had an unknown client who had offered to restore the pearls.

"I make these conditions, however," said the stranger, "I shall bring the pearls into the house at the servant's entrance at a time when all the servants are out, and shall hand the pearls through a crack in the door. I shall receive the \$10,000 reward which was offered, and which I intend for charity."

When I leave the house I shall not be followed or shadowed in any way.

These curious conditions were fulfilled. All the servants in the lady's household were sent out while she, with her husband, her lawyer and a jeweler who was to identify the pearls waited in a closed room. Suddenly a step was heard outside, the door opened a few inches, and a well-gloved hand was thrust through the opening.

The fingers gleamed the long lost pearls. The jeweler took the gems and thrust into the waiting hand. The door then closed and the mysterious stranger hurried down the stairs.

Two seconds later a powerful motor car was heard to drive off, and the finder of the pearls vanished with his secret.

TWENTY MINUTES IN CHINATOWN IN PANTAGES
Melodrama of Chinese Life Will Be Attraction During Christmas

Not many people throughout America have had the real opportunity to study that great engine, the Chinaman. The race has, in fact, been always well known to many but in "Twenty Minutes in Chinatown" the picture which is presented is a new one. It is a picture of the life of a Chinaman, a picture of the life of a Chinaman, a picture of the life of a Chinaman.

It is a picture of the life of a Chinaman, a picture of the life of a Chinaman, a picture of the life of a Chinaman.

POWER OF CONSCIENCE
FEATURE AT THE BIJOU

Excellent Drama Drives Home a Lesson That Cannot Be Forgotten.

A strongly excellent dramatic picture in strong characters and with driving force is a lesson one can never easily forget in "The Power of Conscience," a two-reel Eosmaph feature film that was shown for the first time in this city. The picture is a picture of the life of a Chinaman, a picture of the life of a Chinaman, a picture of the life of a Chinaman.

AD CLUB WILL HOLD SERIES OF LECTURES
Classes and Lantern Slides Will Also Instruct Members in Business

In a circular just issued to the members of "The largest Ad Club in Canada," secretary Miss Kate Armstrong, of the national or departmental side of the club's activities and reminds the members that this evening there will be a meeting of the club in parliamentary hall in the club's new room on the seventh story of the Taylor block, from 8.00 to 9.30 p.m. tomorrow evening, same place and hour, there will be a class in advertising and selling. The feature of the meeting will be lecture No. 3 of Associated Ad Clubs of America course. The subject will be "Printing from the Advertiser's standpoint." This lecture has been prepared by "Black Ink," Neph of Publishers, P.M., and heard and explained by Mr. Joseph W. Mahr, in addition there will be thirty lantern slides to illustrate the lecture, they will be operated by B. F. Brown.

"KNIGHTS OF RHODES"
AT EMPRESS THEATRE

Story of Valiant and Brave Christians Why Try to Keep Alive Spirit of Crusaders.

The Empress theatre is doing with today's performance one of its most highly and best received presentations in "The Knights of Rhodes," a three-reel feature film based on the wars of the Crusades of the middle ages and their attempts to capture the holy land from the Saracens. Nothing is hardly more interesting, more romantic, more instructive, than the story of the valiant and brave Christians who on the long island of Rhodes, built the great crusade had been ended, endeavored to keep alive the spirit and traditions of the crusades. It is in these episodes and the history of these Islanders that the world's famous Ambrosio company built the story as told on the screen in this film.

Not only is the theme of the play one of intense interest and instruction, but the acting is of an apparent quality that shows only that those who interpreted the characters did so with an intelligence and understanding that unfolds the story and brings to one's eyes the history and active conditions of the time, as if we really lived now in the Crusades.

In subjects of this character the Ambrosio company are at their best. A lovely pathetic love affair is shown with the many scenes of martial strife and puts a nicely desirable additional touch of interest in the film. The organ music accompanies the picture.

To the compliment of the management they are showing "The Knights of Rhodes" at regular prices, although the production is fully worth an increased price. The picture is one of the most valuable of the program for tomorrow and Saturday.

UNTO THIRD GENERATION AT MONARCH THEATRE

Photo Play Which Will Feature Charming Little Actress, Florence Lawrence.

The monarch today will present for this day only, a two-part drama "Unto the Third Generation." This play story will feature as the star the charming little actress Florence Lawrence.

America is surely a cosmopolitan nation where a man is accepted for his worth, not for his blood or breeding, and so it happened in this instance, where Miss Lawrence, who the man she loved against all race traditions because he was human, and because he was a man. In this play, written by Walter MacNamara, the accomplished little actress, Miss Lawrence, has departed from her usual roles in that she assumes the character of a modern New York Jewish girl. And a rich treat is in store for her admirers of course there is the eternal clash of creed and race; it is a big human story of love that has been repeated everywhere with great enthusiasm.

ADVISES BLANKET INSURANCE POLICY
Chief Laufer Prefers This to Formation of Benevolent Society.

There has been some talk recently of the formation of a benevolent organization among the Hebrews of the city with provision for a pension fund. The matter has been brought up by the Hebrews of the city who yesterday reported against the proposition to the city commission. The report of the city commission has made its report covering this question.

The chief argument that it would be better for the city to provide a pension fund for the Hebrews of the city is that the city should insure every member of the department and insure each in the extent of \$2,000. In dealing with the subject he said:

"I am a meeting of all the officers and members of this department, it was decided that as we are not a religious body, we should not have a religious character act that the city be asked to protect the members in some way. The city should insure every member of the department and insure each in the extent of \$2,000. In dealing with the subject he said:

TIGERS AND ESKIMOS FAVOR CHANGE OF RULES

ALBERTA AMATEUR UNION CANNOT SANCTION SKATING RACES IN PROVINCE

Shameful Condition of Affairs—Headquarters Should Be in Winnipeg—Reorganization Needed.

It was the intention to run some skating races for the senior championships of Edmonton, but upon making inquiries at the Y. M. C. A., however, it was found that though there is no representative of the Amateur Skating association in the province, the Alberta branch of the C. A. A. U. has no jurisdiction over skating, and therefore cannot give a sanction to hold such a meet.

This places the skaters in the position of having to refrain from skating races, under penalty of being professionalized (save the mark). It is a great pity that such a condition of affairs exists and it would appear to the editor of this page that something should be done, and that right quickly, to enable the athlete to compete in any sort of amateur sport under control of one governing body.

Just imagine the situation if you can. The amateurs of the province of Alberta, holding amateur cards, cannot organize and compete in amateur skating races without writing to Montreal for consent, in spite of the fact that we have in this province a branch of the C. A. A. U. which is supposed to control amateur sport. NO SKATING RACES!

What is needed in the amateur athletic union of Canada is reorganization, and new men at the head of it who know something about sport and conditions in the west as well as in the east. The time is long since past for the governing body of the C. A. A. U. to hold its headquarters in Montreal. It would be three weeks from the time of writing for a sanction until the permission was received here. Let the headquarters of the C. A. A. U. be moved to Winnipeg, then east and west will be equally well served by it. And for goodness sake give the Alberta amateur athletic union jurisdiction to sanction skating races in this province.

SWIMMING TRIALS

FRIDAY AT Y.

All Swimmers Invited—Will Play Polo Championship Soon.

On Friday, at 8:30 p.m. in the "Y" pool the Y. M. C. A. will hold its annual swimming trials. The amateur swimming club will hold further trials for the approaching championships. Every swimmer in Edmonton is invited to attend, as it is recognized that Calgary has a very strong team. The official dates of the provincial swimming championships to be held in the Calgary "Y" are December 29 and 30. As in the past, the Calgary Y. M. C. A. is in charge. After the swimming on Friday night, polo practice will be held, as Calgary has been challenged to a game at the championships. In the past they would not consent to play this game but it is expected they will accept this year. Owing to the small pool, only five will line up on each side. Spectators are cordially invited, and there will be no entrance fee. Unattached swimmers are especially invited. The championships are held under the auspices of the A. A. A. and any amateur is eligible to compete.

SWIMMING EVENTS
Following is a list of the events at the Alberta swimming championships to be held in Calgary on December 29 and 30. The meet is sanctioned by the A. A. U. of Canada, and handsome medals, emblematic of the provincial championships will be presented in the various events. The entry fee in the young events are as follows: one event fee, two events \$7.50, three or more events \$10.00. Entries close at 11 a.m. Monday, December 29. There are also events for juniors under 16 years and for juveniles under 11 years.

Senior Events
1. 25 yard swim.
2. 50 yard swim.
3. 75 yard swim.
4. 100 yard swim.
5. 50 yard breast stroke.
6. 100 yard back stroke.
7. Long plunge.
8. Heat dive.
9. Relay race, 150 yards, 4 men to team.

MELVILLE TRIMS

MOOSE JAW HOCKEY

With Strong Team They Sprung Surprise and Won By 5 to 3.

Regina, Dec. 18.—Melville sprang a surprise on the Champion Moose, of Moose Jaw, in the opening game of the hockey season here last night, by winning 5 to 3. The game was staged in Regina because of lack of ice at Moose Jaw. Melville, newcomers in the southern division, has a husky line-up and the weight was used to advantage. The score was 1 to 1 at half-time, but Melville had the shade all the way through. It was not particularly good hockey, and the showing of last year's champions was disappointing. Del Irwin, of last year's Winnipeg Monarchs, was here with Melville, but his duties were confined to goal-keeping, as he had not complied with the residence limit.

AT THE Y. M. C. A.

Thursday
11:15 to 12 noon—Business men's class.
4:15 to 5:15—Students class.
5:15 to 6:15—Junior business men's class.
6:15 to 7—Junior basketball practice.
7 to 8—Junior employed boys' class.

Friday
4:15 to 5:15—Senior boys' leaders' corps.
5:15 to 6:15—Senior business men's class.
6:15 to 7—Intermediate basketball.
7 to 8—Basketball practice.
8 to 9—Basketball practice.
9 to 10—Basketball practice.
10 to 11—Basketball practice.

Senior Events
1. 25 yard swim.
2. 50 yard swim.
3. 75 yard swim.
4. 100 yard swim.
5. 50 yard breast stroke.
6. 100 yard back stroke.
7. Long plunge.
8. Heat dive.
9. Relay race, 150 yards, 4 men to team.

Shown above, is the interior view of what is without any doubt the finest hockey and skating rink in the Dominion. Finished last year just in time for the annual exhibition and used as a stock pavilion and for the

indoor home show, it is now covered with a splendid sheet of ice 210 x 30 feet. There are no "square corners" to the ice surface. Instead, the ends are "rounded," thus making for much faster hockey. The rink is wonderfully well lighted, and the seating capacity is 5000, which includes 75 boxes of five seats each. The choicest row of seats is six feet back and up from the ice thus eliminating danger of interference in a hockey game. Every seat in the rink commands a splendid view of the ice. There are splendidly equipped dressing and waiting rooms for ladies and gentlemen. "Dance" White and "Shower" Campbell have charge of the rink this winter and the first game will take place Xmas Eve between the Regina and the Dominion.

"WILD BOB" BURMAN WORKS FROM MECHANICIAN TO SPEED KING
A big, coal-black shaped car that has been swinging around the fair track, around a half mile oval faster than it has ever been accomplished before. When the excitement dies away, and the crowds pass out through the gates, a tall, dark-eyed youth who has been racing since he was a boy, is seen carefully leaning against the fence during it all, follows a few of the curious to where the Frenchman's big car is standing seemingly catching its breath from its strenuous assault with Father Time.

Some one of the crowd about the machine ventures the remark that "there's 'Berrier' was some human danger of a scorcher." To every one's surprise the dark-eyed young man replies that anyone could do it if they had the same car and the nerve to let it out.

To prove that he wasn't talking for the benefit of listening to his own flow the youth takes permission to take a spin the car when he driver returns. At first his request is taken as that of a "flop" who wants to be turned down, and then see that he offered to go through with it if they would let him. That a second glance convinces Louis Chevrolet that the serious-faced boy is in earnest. As it is in the pioneer days of the racing game when the champions with nerve and ability were as scarce as plums on a peach tree, the French driver aids the boy if he has ever repaired an engine. On being informed that he was the handy man about the farm and only a week had taken the old thrasher all to pieces and put it together without having any parts left, the Frenchman tells him to come around the next morning.

A number of years have passed. A big crowd of important looking men are clustered about a smiling, dark-eyed fellow in a racing car at the Indianapolis speedway. At the conclusion of the ceremonies the man in the machine is presented with a crown on

which is engraved "To Wild Bob Burman, Speed King of the World." That boy who at first time in Flint, Mich., said that he could be in the same class as Louis Chevrolet did, with the same car, had smashed every record that existed for speed. From that time on, he had worked his way to the acknowledged head of his profession in championship tests.

In the year that is drawing to a close "Wild Bob" Burman drove his "Five Green" Keston and because he didn't get the level in the back, was forced to take second money to men whose cars he has repeatedly bettered in championship tests.

Consequently, there have been whispers among the knowing ones that "Wild Bob" is not the speed demon he used to be. Some of these observations have reached "Wild Bob" and he says that next year he will drive the Keston faster than anything on wheels has ever been driven before. Burman says he will not take back the statement he made last spring, when he said that the Keston was mechanically perfect. He came out unscathed and said it was the best car he had ever taken the wheel in and he still thinks so.

JOSEPH TINKER TO MEET EBBETTS
Will Take Up Matter of Becoming Member of Brooklyn Club.
Chicago, Dec. 18.—Joseph Tinker, general manager of the Cincinnati club, will meet Charles Ebbetts, president of the Brooklyn club, soon to decide whether he will become a member of the Brooklyn club. Tinker yesterday received a letter from Ebbetts, asking the champion to meet him within five days. Tinker replied that he was willing to meet the Brooklyn club owner, but no date was set.

XMAS HOLIDAYS BOYS' PROGRAM

Basketball, Tag-of-War and Efficiency Tests—Ramsay Cup to Be Played For.

The school yards at the various city schools, present series of annual activities these days and the boys are taking advantage of the fine weather to get in shape for the basketball competition for the Ramsay Cup which takes place at the Y. M. C. A. gym during the holidays of the Xmas holidays. The first game after school which is up the competition was provided by Mr. Walter Ramsay, a year ago and was won for the first time by the Ramsay school. This year the result of the games is very much in question, as several of the schools have good strong teams and the games should be very closely contested. In addition to this tournament there will be a tag-of-war contest open to any school. This contest is for teams of six boys their average weight to be 500 pounds. A home-made emblem of the school championship will be given to the winning team. For the high schools, days have been set aside for competition in the physical section of the Canadian standard efficiency tests. It is expected that there will be a big turnout of boys from the various high schools taking part in these tests, as the boys' evaluation of successful tests are very much sought after by the boys all over the Dominion of Canada. On Friday, January 2nd, the aquatic tests will be carried out for high school boys. The scholars of the various schools are invited to be present and cheer their respective schools on to victory. Mr. Ramsay will open the contest with the Ramsay cup. And if not, stay it for reference.

11:30 a.m.—Queen Alexandra vs. Norwood.
Monday, Dec. 23, 10:30 a.m. Winner of A's, winner of B.
11:15 a.m.—Tag-of-war, open to all schools. 16 boys, 600 pounds.
Tuesday, Dec. 24.—Physical tests (Canadian standard efficiency), Victoria high school, 10 a.m.
Wednesday, Dec. 25.—Physical tests, sectional high state and Terminus school.
Friday, Jan. 2.—Aquatic tests (all high schools).

CUTS HIGH LIVING COST.
C. R. Laborer's Central Cafe, 214 Jasper East, is cutting the high cost of living by selling for a quarter a meal. "This another used to cook," many are patronizing this homelike place.

11:30 a.m.—Alex Taylor vs. Oliver.
12:30 a.m.—Alex Taylor vs. Oliver.
11:30 a.m.—Queen Alexandra vs. King Edward.
Tuesday, Dec. 23, 10 a.m.—Alex Taylor vs. Oliver.
Wednesday, Dec. 24, 10 a.m.—Alex Taylor vs. Oliver.
10:30 a.m.—Olinops vs. Metley.
11 a.m.—McCauley vs. Queen Alexandra.
11:30 a.m.—King Edward vs. Norwood.
Friday, Dec. 26, 10 a.m.—Oliver vs. Queen Alexandra.
10:30 a.m.—McCauley vs. King Edward.

11:30 a.m.—Queen Alexandra vs. Norwood.
Monday, Dec. 23, 10:30 a.m. Winner of A's, winner of B.

YALE AND HARVARD BASKETBALL GAME

Score Was 21 to 13 in Yale's Favor—Only Fair Game—One Man Hurt.

Yale upset the dope last night when they defeated the Harvard team in the senior boys' basketball game at the Y. M. C. A. by the score of 21 to 13. Watson, Harvard's star player, was unable to play, and so weakened the chances of his team. The game was very fast, but lacked combination and the checking became quite strenuous at times, without any serious mishap, however, except Kerr, Yale's star centre man, who got a nasty bruise on the eye, but who continued after a short rest. For Yale, Kerr, Davidson and Smith were the picks of the team, while "Slick" O'Loughlin and Pfeiffer scored for Harvard.

Yale—Kerr 7, Armstrong 4, Davidson 3, Smith 2-21.
Harvard—Hiram 3, Pfeiffer 4, O'Loughlin 4, Third 2-12.

Yale
Kerr C O'Loughlin
Davidson R.F. Pfeiffer
Armstrong L.F. Third
Smith L.G. McDonald
Scott game, Thursday, December 18, Oxford-Yale.

WAS TROUBLED WITH Weak and Dizzy Spells.

Heart Would Beat Something Awful.

Those feelings of weakness, those dizzy spells which come over people from time to time, are warnings that must not go unheeded.

They indicate an extremely weakened condition of the heart and a disordered state of the nerves. One dizzy spell may pass off, but eventually they will come frequently, and at the same time more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills before their case becomes hopeless, for they have no equal for restoring the heart to its normal strength, and making the nerves firm and steady.

Mrs. Len. Kinney, Moore Mountain, N.B., writes: "I was troubled with weak and dizzy spells, and my heart would beat something awful. I got so I had those spells every day. I got so I would try the medicine, and then another, but nothing did me any good until I got Milburn's Heart and Nerve Pills. I can safely say they did me more good than anything I ever took, for I feel like a very different woman. My friends often ask me what I have been taking, and I always say 'Milburn's Heart and Nerve Pills.' If all my friends who suffer their heart troubles turn, to take your pills."

Price, 50 cents per bottle, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milligan Co., Limited, Toronto, Ont.

Buchanan's
SCOTCH
Whisky

The Scotch You Can't Forget!

SMOOTH, mellow, aged in sherry casks and bottled at the famous Buchanan's distillery. This fine "Government standard" whisky has been a warm favorite for 40 years. Try it.

TIGERS SUPPORT ESCAMOT IN THE CHANGE OF RULES

Want Rugby Regulations Amended Along Same Lines as Those of Quebec—Change is Expected to Speed up the Game—Too Much So to Allow of Fighting.

Calgary, Dec. 18.—The Tigers will support the efforts of the Rugby Union to have the rules for the province amended along the same lines as has been done by the Quebec Union.

"The changes will speed up the game," said Capt. Arnold Ward, "and that is what we need. There will be too much speed for the players to fight, and that will be another good thing."

"While the delegates have not yet been instructed on the matter, I have no doubt but that we will give our strong support to the proposed change."

LONG WALKS WILL LENGTHEN LIFE

Enjoy Health and Long Life by Walking—Builds Up Body.

Just as wrestling and boxing is of great value as a means of building out all one's latent muscle powers, so walking is useful as a means of adding to the length of life. Walking largely adds to one's years of life by adding to the vital principles of the body day by day as the exercise is performed. It arouses functional activity. All the muscles of the body are put to work by the stimulus of walking. Mind you, we do not mean a walk of a mile or two a day. We mean a long walk—for instance, a walk of from 10 to 25 miles each week will do you more good than a five mile walk taken daily.

Of course, those who are very weak and who are unable to walk for a mile or a mile and a half at a time, should not attempt to walk for a long time at a time, but they should walk for a short time and repeat the exercise the following day.

Reference has been made to the claims of the nervous example of longevity that has been presented to us by Weston, which has resulted in a great deal of walking habits. How many people who read this article would like to possess the extraordinary endurance and strength which he has given evidence of having. He is an old man in years, but a young man in fact.

If you are suffering from a chronic disease of any kind, if you are a victim of an organic weakness, if you lack enthusiasm, if you do not possess the energies that are essential to make life worth while, then walk. It is a sure way to take long walks—walk until you are thoroughly fatigued. If it requires a day or two to get your feet used to it, then walk a little longer each day. Try a long walk each day, for you will find that you will be able to walk a long long tramp of 30 or 40 miles, or even more.

The street cars and railroads are rubbing lots of people of their health. They have taken away the via and enthusiasm which can only come from the use of physical powers, which can be attained in walking and other exercises. Remember also the value of deep breathing exercises while walking. Make a habit of taking a "lung" by deep breathing. There are perhaps two ailments which bring into active use every part of the muscular organism—wrestling and walking. Wrestling especially exercises the muscles of the back and spine while walking arouses every blood-making organ to healthy activity.

ANOTHER WORLD'S SERIES IDEA.

Certain scribbles, not content with trading Tucker and advancing Governor on what he should do as president of the National League, have advanced another suggestion for the revision of the world's series played between the two pennant winning teams, substituting two all-star teams from each league, to be selected by the Baseball Writers' Association.

It is proposed by the originator of the plan, that a committee, selected from the members of the National League and the other from the National League, and that these combinations play a series of nine games for the championship, each game to be played in a different city on the two big circuits. The plan calls for a choice to be limited to 20 players in each league, and also would limit a player's eligibility to two years of such world championship play. The selection of each player would be made by a majority vote of the committee, and you city would have more than one representative on each committee.

Granted that such a series would appeal to some as a spectacle, what would be at stake? It would be impossible to develop the case, but when you consider the time that it would take the players in the time that they would have an opportunity to play in a series of nine games, it is unquestionably one of the most important factors in the success of any series. Nothing would be decided as a result of the games, other than the fact that nine players from one league would be better than nine from the other, on the other hand, it is impossible to secure one individual player from such a league who are in a class all by themselves in the league, which they perform, although the players as a class are not near so good.

ANNUAL SQUABBLE AMONG SWIMMERS

True Sporting Spirit Seems Lacking With Local Club.

(By C. Dunham)

Edmonton swimmers may be depressed from competing in the swimming championships at Calgary on December 20th and 21st according to a letter received by C. M. Elman, secretary of the local club, from J. B. Horton of the Calgary club. Mr. Elman of the local club has been in correspondence with the Calgary gentleman in reference to swimming matters and has taken it upon himself to complain of dissatisfaction and ill-treatment given to our club by the attendance at meets in the southern city. But it would appear to the editor of this paper that the local swimming club, at the head of it are always ready and too anxious to knock the Calgary management without sufficient reason. It is an annual occurrence, this squabble between the Edmonton and the Calgary swimming clubs, and I am very much of the opinion that the local men in charge are perhaps somewhat to blame. Last year there was comment made regarding the decisions in some of the swimming races in Calgary, and mention was made of ill-treatment at that time, which was said to be a sport in the real sense of the word. There may be need for a change in regard to the way in which the matter be handled in a sportsmanlike manner. I think Secretary Horton has taken the right attitude in the local club should withdraw their complaints and get into the game.

OLD TIMERS 43, McDOUGALLS 23

Large Crowd Sees Good Game Last Night—Tompkins Makes High Score of Evening.

"How have the mighty fallen" might have been a better heading for this story than the one used, but the facts remain the same nevertheless. That well known bunch of basket ballers called the McDougalls were given a rule job last night when they altered their ideas of being an unbeatable team. The stunning knock home in the form of the old timers who played the game of their lives in order to keep in the running for the senior championship honors. Every mother's son of them were "on" while on the other hand the McDougalls did not seem able to get going in their usual good style. The score—43 to 23 at half time stood 22 to 7 for the winners, but in the second period the McDougalls came up stronger with the scoring and scored 15 points to their opponents' 23. A good sized crowd witnessed the contest, and some were glad and others were sorry to see the J. A. Macs go down to defeat. McDougalls' Tompkins played the game of their lives in order to keep in the running for the senior championship honors.
